## *Introductions*

### **Fuchsia Stars (Howell)**

This bright fuchsia with wide green throat has attracted much attention from the first flower. It seems always to be in bloom, as it has fine branching and here it repeats all season.

Evergreen . . . 36" (net) \$10.00

### **Jenanne (Thatcher)**

We have grown this daylily three years and believe you will like it as much as we do. It is a large 9-inch bicolor, broad petals buff cinnamon dusted, wide throat and sepals clear yellow. A four-time bloomer.

Semi-Evergreen . . . 36" (net) \$15.00

### **Miss Prim (Howell)**

A delightful, beautifully formed, light green-yellow. This would grace any front border. Because of its form, color and height we believe this will go far.

Evergreen . . . 18" to 24" (net) \$10.00

### **Spring Harmony (Howell)**

Wide petals and sepals of rich purple-red with deep blue tones. Another favorite with garden visitors. It has the color, good branching and repeat bloom periods that are liked.

Evergreen . . . 34" (net) \$10.00
